1899 'L. SCOTT' *Cathedral Builders* 5 The origin of the name *Comacine Masters* has caused a great deal of argument amongst Italian writers new and old. Others again, among whom is Grotius, suggest that it is not a place-name at all, but comes from the Teutonic word *Gemachin* or house-builders. Coon-can (kū·nkæ·n). Also **cooncan**; **conquian** (kɒ·nkiăn). [ad. Sp. *con quien* with whom?] A game of cards, originating in Mexico, the main object of which is to secure sequences.

One card is placed face upwards and the rest of the cards face downwards, each player in turn taking either the exposed card or the top card of the pack, afterwards discarding any card in his hand. The player gets rid of his cards by declaring them when he has made a complete set or sets, and the winner is the one who first gets rid of all his cards.
